

SOMERSET COUNTY BUSINESSES

Berlin Foundry advertisement

From the *Somerset Herald & Whig*, February 18, 1852.

BERLIN FOUNDRY.

STONER & KIMMEL,

HAVING entered into partnership in the Foundry business, would respectfully call the attention of the citizens of Somerset county to the large and superior assortment of castings on hand, which they offer for sale on the most reasonable terms. They have on hand a number of

Tumbling-Shaft Threshing Machines,

The very best now in use. They are too well known to need a recommendation. Every farmer should have one.

Ploughs of every description and Plough castings:—Woodcock Plough, letter A, Nos. 1, 2, 3, best Hill-side plough, patent self-sharpening plow. All the above ploughs have been fitted up with great care, so that the shares will fit to perfection.

Cooking Stoves of all kinds:

Hathaways, and several others of the most approved patents. Coal stoves, wood stoves, egg stoves no. 1, 2, 3, different sizes. Also stove plates and all the furniture necessary.

They are now manufacturing the one horse power churn for making Goshen butter, an article they can conscientiously recommend as the cheapest and most labour saving churn now in use.

They are prepared to make to order castings of every description, including,

Machinery for Circular Saws

and of several other kinds, in fact anything from a steam engine down to an iron-holder, and everything will be sold on the most accommodating terms.

Castings delivered in any part of the County.

THE SOMERSET FOUNDRY
MANUFACTURES

SPEAR'S ANTI-DUST SMOKE CONSUMING
COOK STOVE, Nos. 9 & 10.

For Coal or Wood, with or without the Hot Water Apparatus.
What we claim for this Stove, is:—Perfection in baking, broiling, boiling, stewing, and every variety of cooking. Ample room in the oven, durability of grates, extra pieces, and covers. Great economy in fuel, sending hot water constantly from the waste heat of the stove pipe. A perfect and ready means of separating the sulphur and from the ashes, and removing both from the stove without permitting the escape of dust or dirt into the room. We invite the attention of all needing good Cooking Stoves, with the assurance that a better invention was never made for heating and cooking purposes. We still pay particular attention to the manufacture of the "Triumph," and "Astoria," Level Stoves, and all kinds of Castings, such as the community may need, in our line of business.

LEARNING A TRADE

Some farmers apprenticed their sons to a craftsman to learn a trade. Apprenticeship contracts itemized the work schedule, established room and board costs, and sometimes provided a clothing allowance. When trained, the apprentice could call himself a "journeyman."

Tinware! Tinware!

CHAUNCEY F. BEAM,

MANUFACTURES to order, in the best style, every description of **TIN AND SHEET IRON WARE**; and has constantly on hand a most desirable assortment at prices most

ASTONISHINGLY LOW.

The lightnings may flash, and the thunder may rattle; For the rights of the people I ever will battle. Against all high prices, or illy made ware, eternal hostility now I declare. Public opinion in one steady stream, is constantly running in favor of Beam. From good on to better I'll ever advance, and show competition a *very fair* CHANCE. My prices are brought to a proper level, If you don't believe it, you may go to the Old established stand one door North of the Visitor office and be convinced.

[] Old copper and pewter taken in exchange for ware.
